

ASSISTANT OR ASSOCIATE PROFESSOR IN RESIDENCE-MATERNAL CHILD AND ADOLESCENT HEALTH

The Maternal Child and Adolescent Health (MCAH) Program in the Division of Community Health Sciences at the University of California, Berkeley School of Public Health invites applications for a non-tenure-track senate faculty position at the rank of Assistant or Associate Professor in Residence. Anticipated start date of this position is July 1, 2018.

The University of California, Berkeley is one of the world's leading research universities, with outstanding research and graduate level training in numerous disciplines. Our location on the UC Berkeley campus allows access to leading edge collaborators in key disciplines, including engineering, computer science, social sciences, public policy, journalism, international development, business, law, and beyond. As part of the UC system, we have access to unequaled capacity and networks. In particular, our close partnership with UCSF joins us with a world class medical campus. With 75 years as one of the nation's preeminent academic institutions in the field of public health, on a campus with a public mission, the Berkeley SPH is in a unique position to lead scholarly, social and health change and has a reputation for excellence in research, education, and community engagement. Our 12,000 Berkeley graduates are transformational health leaders across all health sectors, with a legacy of impact and innovation locally, nationally, and globally. The Bay Area is also at the forefront of innovations related to health delivery as well as racial, gender, sexuality and other forms of social equity and justice.

The mission of the MCAH Program is to develop the next generation of leaders equipped to solve the health challenges facing women, children, adolescents and families of the 21st century. MCAH teaching and research at the UC Berkeley School of Public Health includes graduate level education and postdoctoral training through the Center of Excellence in MCAH; the Bixby Center for Population Health and Sustainability; the Wallace Center for Maternal and Child Health; Innovations for Youth; MCH training in Public Health Nutrition; and the Center for Environmental Research and Children's Health (CERCH). Faculty and students are responsive to newly emerging issues in MCAH and to the unique needs of the diverse communities and cultures of the San Francisco Bay area, State of California, and the world. Students are inspired to use their skills and expertise to achieve health equity for all.

Research/Practice: We seek applicants with demonstrated expertise in one or more of the following fields: social determinants of health, policy, MCAH practice, migration, health technology, children & youth with special health care needs, and consumer/family engagement. Preference will be given to candidates whose research focuses on MCAH issues and populations in the domestic US. Particular consideration will be given to candidates doing cutting edge work in the design, implementation, evaluation and practice of public health interventions. The ideal candidate will be able to teach graduate courses related to program planning, life course theory, and the fundamentals of MCAH practice and policy.

Additionally, the faculty member will be expected to establish a portfolio of research supported by extramural funding; teach graduate courses in the Program and Division; advise Maternal Child and Adolescent Health MPH students on capstone projects; serve on the MCAH admissions committee; and provide service to the department, school, university and the profession. In the first three years of appointment, 100% of academic year funding will be provided by the Wallace Center for Maternal and Child Health in the School. In the fourth year, this academic year funding will be reduced to 75% support and in future years, 50% of academic year funding of this position will be provided by the endowment. The remainder of funding will need to be covered by extramural funding obtained by the candidate. This is a 9 month position, with academic salary and the associated benefits paid over 12 months, and opportunities for additional teaching or research during the summer to complete up to full year of effort.

Minimum basic qualifications:

Candidates for Assistant Professor in Residence must have completed all Ph.D. or equivalent degree requirements except the dissertation in the field of public health, medicine, nursing, the social/behavioral sciences (e.g., psychology, social welfare) or a field with direct application to public health (e.g., health informatics) at the time of application, and a Ph.D or equivalent degree is required within one year of hire date. Candidates for the position

should clearly demonstrate the potential for excellence in research and teaching and have a clear potential for distinguished scholarship, grant-funded research.

Candidates for Associate Professor in Residence must have a doctoral degree or equivalent degree in the field of public health, medicine, nursing, the social/behavioral sciences (e.g., psychology, social welfare) or a field with direct application to public health (e.g., health informatics) at the time of application, and should have a strong record of research and teaching, including an exceptional research program with demonstrated success in securing and sustaining external funding.

Candidates applying for the Assistant Professor position should submit a cover letter, up-to-date curriculum vitae, statement of research (current and future research interests), statement of teaching (including experience and teaching philosophy), statement of contributions to diversity (brief statement addressing past and/or potential contributions to diversity through research, teaching, and/or service) and three publications via UC Berkeley's online application system by the search closing date, January 22, 2018. Candidates should also arrange to have three letters of reference submitted online.

Candidates applying for the Associate Professor position should submit a cover letter, up-to-date curriculum vitae, statement of research (current and future research interests), statement of teaching (including experience and teaching philosophy), statement of contributions to diversity (brief statement addressing past and/or potential contributions to diversity through research, teaching, and/or service) and three publications via UC Berkeley's online application system by the search closing date, January 22, 2018. In addition, please provide contact information for three referees. We will contact your referees only if you are a finalist for the position, and we will seek your permission before doing so.

Rank will be determined based on qualifications and experience. Senior Assistant Professors should apply to the Assistant recruitment.

If you are currently a graduate student, a postdoctoral scholar or have been an assistant professor or professional researcher for four years or less, please apply to the assistant rank. Applicants for the assistant professor in residence rank may apply here:
